ABOUT ME

I strive to create user-centric designs by building responsive and immersive web applications with carefully crafted code. I'm a lifelong learner. Over the course of my life and career, I have developed expertise in several areas of design. I am seeking to continue this growth by opening myself to opportunities that are guaranteed to challenge me. My foundational skills are Communication, Problem Solving, Research, Creativity, and Adaptability.

WORK EXPERIENCE

Participated in a project-based Full-Stack web development bootcamp

CareerFoundry [09/03/2021 – Current]

City: Berlin

Country: Germany

- Business or sector: Education

Full-Stack Web Developer

- Created a REST API with Node.js and Express.js and then used Mongoose to interact with a non-relational database (MongoDB) of movies stored as JSON objects
- Tested the API with Postman, wrote clean and concise documentation for the endpoints, and deployed the API with Heroku
- See the [Code](#) on GitHub
- Built the application's client-side in React as a single-page, responsive application with routing, rich user interactions, several interface views, and a polished user experience
- Implemented Redux state management and utilized @reduxjs/toolkit to create concise and readable Redux logic
- See the [Code](#) on GitHub

Front-End Web Developer

- Created a JavaScript app built along with HTML, CSS, and jQuery, which uses an external API
- Implemented features according to guidelines set out by mock-ups and design assets
- Utilized object-oriented programming (OOP) and functional programming (FP) principles to carry out application features
- Integrated a variety of UI features, including a navigation bar, contact form with validation, modals, accordions, and cards, with the assistance of Bootstrap
- See the [Code](#) on GitHub

EDUCATION AND TRAINING
