ABOUT ME

I am a junior full stack developer and I am seeking to continue growth by opening myself to opportunities that are guaranteed to challenge me.

EDUCATION AND TRAINING

12/02/2021 – 02/03/2021

Responsive Web Design

freecodecamp

Field(s) of study
- Responsive Web Design

09/03/2021 – 24/08/2021

Full-Stack Web Development

CareerFoundry

During participating in the Full-Stack Web Development Programm, I've acquired a whole host of technical skills that I'll need as a web developer, from creating websites and applications with HTML, CSS, and JavaScript and advanced frontend techniques like React and Angular to creating APIs with Node.js and working with different databases and storage solutions. I've also learned a lot of common practices regarding security, ethics, testing, and documentation for my development projects.

I learned about the non-technical skills I'll need to collaborate effectively—everything from communication and empathy to being approachable and showing respect for diverse experiences and skills.

WORK EXPERIENCE

09/03/2021 – 24/08/2021 – Berlin, Germany

Attending a project-based Full-Stack web development bootcamp

CareerFoundry

Full-Stack Web Developer

- Created a **REST API** with **Node.js** and **Express.js** and then used Mongoose to interact with a non-relational database (**MongoDB**) of movies stored as **JSON** objects. Tested the API with **Postman**, wrote clean and concise documentation for the endpoints, and deployed the API with **Heroku**. See the Code on GitHub
- Built the application's client-side in **React** as a single-page, responsive application with routing, rich user interactions, several interface views, and a polished user experience, Implemented **Redux** state management, and utilized @reduxjs/toolkit to create concise and readable Redux logic. See the Code on GitHub
- Built a single-page application using **Angular** that is connected to my movie-API. Users are able to create an account and browse their favorite movies. They can modify account information, add or remove movies from their list of favorites, or delete their account, This app is built using the MEAN stack of technologies, (MongoDB, Angular, Express.js, Node.js). The app uses Angular Material throughout as well, Utilized **TypeScript**, HTML, **SCSS**, JavaScript. See the Code on GitHub

Front-End Web Developer

- Created a **JavaScript** app built along with **HTML**, **CSS**, and **jQuery**, which uses an **external API**, Implemented features according to guidelines set out by mock-ups and design assets,

Utilized **object-oriented programming** (OOP) and **functional programming** (FP) principles to carry out application features, Integrated a variety of UI features, including a navigation bar, contact form with validation, modals, accordions, and cards, with the assistance of **Bootstrap**. See The Code on GitHub

◦ A mobile chat app built with **React Native** and **Expo** that stores data with **Google Firebase**. Users can send messages and are able to share images and locations. See the Code on GitHub

◦ Created a Meet App that is a serverless, progressive web application (**PWA**) with React using a **test-driven development** (TDD) technique. The application uses the Google Calendar API to fetch upcoming events. The serverless function is hosted by the cloud provider **AWS**. See the Code on GitHub

DIGITAL SKILLS

Programming Languages & Tools

CSS / Postman / REST / MongoDB / Express.js / Bootstrap / jQuery / Redux / Node.js / Angular Js / Agile TDD / Angular material / Github / Javascript (ES6) / Databases SQL and NoSQL / Typescript - basics / API / HTML5 / JSON / Unit Testing / React React Native React Hooks

3D & Graphic Designe

Rhinoceros 3D / Gemvision Matrix 8 / ZBrush / Adobe Photoshop / Adobe InDesign

FUNDAMENTAL SKILLS

Fundamental Skills

◦ Communication and Respecting Diversity
◦ Problem Solving
◦ Research
◦ Creativity
◦ Adaptability
◦ Empathy
◦ good Listener
◦ Patience
◦ Accountability

LANGUAGE SKILLS
